Hi Tracy,

A simple line item that states, "This property is zoned within a light industrial use zone. Please refer to Borough code for a list of allowable uses that may occur in this area."

Or, "This property is zoned along a state highway from an industrial area. High traffic and associated noise may occur."

Sorry for the delayed response – I've been out of town and in meetings.

Thanks – Robert

Good morning, Robert.

I am putting information together for the May 9, 2013 Planning Commission meeting and have include "a discussion of Disclosure of Zoning Regulations for Property Sales" as you requested. Would you please let me know what information you suggest me to include in the packet for this topic? Thank you very much.
